

YOUR FLEET IS LIKE FAMILY. PROTECT IT.

ALLISON FIRST. ALLISON ALWAYS.

You chose Allison Automatics because you wanted the most performance, reliability and productivity from the vehicles in your fleet. So, when it comes to their care and maintenance, protect them with Genuine Allison Parts and Service.

The combination of Genuine Allison High Capacity Filters and TranSynd™ transmission fluid not only provides Allison Automatics with the best protection, but also greatly extends filter and fluid change intervals in most applications. And, our comprehensive Transmission Fluid Analysis Program helps ensure you get the maximum potential from the fluid. All of which means less routine preventive maintenance, less downtime and lower overall lifecycle costs for your Allison Automatics. And that translates to greater savings for you.

Genuine Allison Parts and Service are available exclusively at our nationwide network of authorized Allison Transmission Distributors and Dealer Service locations. To find one near you, visit www.allisontransmission.com.
